

OM BHARADWA

BUSINESS ANALYST | REQUIREMENTS ANALYSIS | PROCESS OPTIMIZATION | AGILE DELIVERY

Ahmedabad, Gujarat | +91 9265786549 | ombharadwa1336@gmail.com | linkedin.com/in/om-bharadwa-084158173

PROFESSIONAL SUMMARY

Result-driven **Business Analyst** with over 3 years of hands-on experience gathering requirements, analyzing business processes, and delivering data-driven solutions across co-located and distributed global teams. Proven track record of leveraging strong communication frameworks and technical acumen to bridge gaps between international stakeholders and engineering teams. Expert at translating complex, ambiguous business needs into structured functional specifications, feature maps, and wireframes with minimal supervision. Capitalizes on a strong technical background to handle data validation, system logic analysis, and regulatory compliance workflows seamlessly.

CORE SKILLS

Business Analysis:	Requirement Elicitation, BRD, FRD, SRS, Epic & Feature Mapping, User Stories (BDD/Gherkin), Gap Analysis
Agile & Scrum:	Distributed Scrum, Sprint Planning, Product Backlog Refinement, Daily Stand-ups, Sprint Reviews
Technical BA Skills:	SQL (Data Validation & Advanced Querying), Data Mapping, API Documentation, ERD, Wireframing (Figma, Draw.io)
Domain & Compliance:	Healthcare IT, Life Sciences Compliance (21 CFR Part 11 / GAMP 5), Quality Management Systems (QMS)
UAT & QA:	Test Scenarios, Defect Logging, Requirements Traceability Matrix (RTM), Stakeholder UAT Sign-off
Tools & Tech:	JIRA, Confluence, MS Office Suite, Slack, Zoom, Microsoft Teams
Soft Skills:	Cross-cultural Stakeholder Management, Independent Problem-Solving, Fluent Written & Verbal English

PROFESSIONAL EXPERIENCE

Sarjen Systems Pvt. Ltd. — Business Analyst	Ahmedabad, India Jan 2024 – Apr 2026
Requirement Elicitation & Epics: Autonomously gathered and analyzed complex business requirements for enterprise-level Life Sciences and Healthcare IT platforms; translated high-level business needs into Epics, Feature Maps, and BDD-structured user stories. System Design & Integration: Formulated comprehensive BRDs, FRDs, and SRS documents, utilizing Figma to design interactive, high-fidelity wireframes and mapping out API/data integrations between distributed modules. Data Mapping & Architecture: Utilized SQL queries to audit backend reporting logic, perform cross-system data mapping, validate stored procedures, and troubleshoot complex data anomalies. Regulatory Compliance: Documented end-to-end workflows for highly regulated modules—including audit trails, electronic signatures, and document control—ensuring strict alignment with industry compliance standards such as 21 CFR Part 11 and GAMP 5.	

- **Validation & UAT Management:** Led comprehensive User Acceptance Testing (UAT) cycles, institutionalized the use of Requirements Traceability Matrices (RTM), and managed cross-functional defect triage and resolution pipelines in JIRA.
- **Stakeholder Management & Pre-Sales:** Conducted interactive product demonstrations, technical walkthroughs, and gap analysis presentations for international clients; accelerated pre-sales cycles by drafting Statements of Work (SoW) and project effort estimations.
- **Cross-functional Alignment:** Partnered closely with Project Managers and engineering teams to ensure rigorous alignment on project scope, milestones, and deliverables.
- **Client Engagement:** Engaged clients directly for clarifications, onboarding, software training, and post-deployment support.

Prof-Cess — Business Analyst

Distributed Team Size: 5 | Jan 2023 – Dec 2023

- Successfully collaborated with senior analysts across different locations to synthesize initial business workflows and user journeys.
- Drafted initial functional documentation, process flows, and created standardized UAT test scenarios using unified cloud documentation platforms.
- Participated actively in discovery sessions to identify operational process gaps and recommend digital improvements.

KEY ACHIEVEMENTS

- **Global Standardization:** Engineered structured BRD/FRD templates adopted across global projects, significantly reducing cross-team rework and communication gaps.
- **Efficiency Gains:** Uncovered critical workflow discrepancies in core product modules, driving a **20% to 30% reduction in manual effort** for enterprise clients.
- **Testing Infrastructure:** Upgraded UAT efficiency by introducing standardized digital test case scenarios and strict traceability (RTM) metrics.
- **Stakeholder Satisfaction:** Strengthened distributed client satisfaction through consistent communication and timely project delivery updates.
- **Data Accuracy:** Supported optimization of backend reporting logic, improving system data accuracy and reducing database query load times.

PROJECTS PORTFOLIO

TMS – Training Management System: Mapped out end-to-end training and induction workflows tailored for SOP-based digital learning; verified backend logic for quiz validation, compliance tracking, and reporting modules during production UAT.

QEdge – Quality Management System: Documented high-level workflows spanning compliance logic, document version control, and multi-tiered audit flows; successfully validated automated risk management modules.

BizNet CTM – Clinical Trial Management: Documented enhancement pipelines, verified updated stored procedures via backend SQL, and streamlined operational reporting infrastructure.

EDUCATION

B.Tech in Computer Engineering — Marwadi University, Rajkot	2024
Diploma in Computer Engineering — Marwadi University, Rajkot	2021
SSC — TATA Chem DAV Public School, Mithapur	2018

CERTIFICATIONS

Google – Foundations of Project Management	2024
Coursera – Business Analysis & Process Management	2024
Google – UX Design Foundations	2024
AWS – Academy Cloud Foundations	2023
Google – Cybersecurity Foundations	2024
